

Rustic jewelry for nerds and fantasy lovers

Brand ethos: for the lore seekers, fantasy mavens, and whimsically minded.

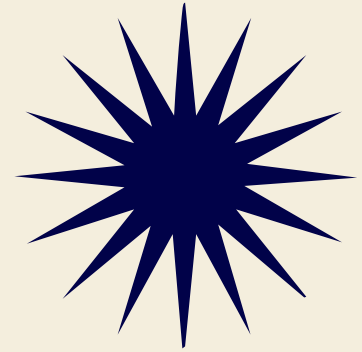

About Us

Bousabe Designs is a husband and wife run jewelry business. While Andrew typically works on the backend of our business, Michelle is our maker, designer, and social media expert.

Our pieces are inspired by our lives growing up in the Sierra Nevada mountains and the books that take us far away. We founded BD in Fall of 2022 creating beaded jewelry. It did not take long for us to dive headfirst into silversmithing and the ancient art of sand casting.

Each and every piece is hand-fabricated in our little in-home studio. When not hunkered down at the bench you can find us taking in nature, soaking up all the time we have left with our old man dog, and tending to our garden.

Why choose us?

- We strive to be as eco-conscious as possible by recycling and reusing as much of our metals as we can, providing recyclable packaging, reusing packaging, and employing various eco-friendly practices in our day-to-day (second hand tools, jars as storage, etc.).
- Our jewelry is 100% unique and one of a kind.
- It is important to us to keep ancient and traditional metalsmithing techniques alive!
- If your customers can't find exactly what they're looking for, we are always open to a custom! We can work with your customers on sizing and personalization.
- We put all our love and attention into our pieces. Nothing leaves our studio without our stamp of approval.
- We find inspiration in the world around us and the books that take us far away. Our pieces are often inspired by our lives, growing up in the mountains, and Michelle's passion for fantasy.
